# About **SeaLion Shipping & Logistics**

Sea Lion Shipping & Logistics is a leading provider of shipping and logistics services and was founded in 2015 by Mr. Muhammad Awais Basit, who recognized the need for reliable, efficient, and cost-effective shipping solutions for customers across the globe.

At Sea Lion Shipping & Logistics, we are committed to delivering the highest quality services to our clients, whether shipping small containers or managing complex logistics operations. Our team of experienced professionals has the expertise and knowledge to handle all aspects of shipping and logistics. We work closely with our clients to ensure their shipments are delivered safely and within the stipulated time frame.

Our comprehensive services include air, sea, and land freight, customs clearance, and project cargo management. We use the latest technology and equipment to ensure that our operations are efficient and reliable, and we are constantly investing in new tools and technologies to enhance our services.

environmental responsibility. We strive to minimize our environmental impact by using eco-friendly packaging materials, optimizing transportation routes to reduce emissions, and implementing sustainable practices in all operations. Sea Lion Shipping & Logistics will be your trusted partner for all your shipping and logistics needs.

WHO WE ARE

# Air Freight

For shipments that are urgent and time-sensitive, Airfreight services are a necessity. Whether your packages are transported in the cargo holds of commercial airplanes or require specialized freighter aircraft for transportation, we offer customers a firm allocation of space on scheduled carriers, which has always been one of our greatest strengths.

Over the years, we have established strong partnerships with major carriers operating in the Middle East region and across the globe, which is a conscious and deliberate strategy to influence our buying price and service with these airlines. This has allowed us to maintain competitive pricing and provide reliable services to our customers.

In today's fast-paced world, demand for air cargo can change quickly, making it essential to have a reliable partner to provide stability and maintain your supply chain's total integrity. At Sea Lion Shipping & Logistics, we are committed to providing tailor-made solutions for all your air freight requirements, ensuring that your shipments are delivered on time and at the best possible price.

You can trust us to handle your time-sensitive shipments, our team of experts will manage every aspect of the process, from transportation and customs clearance to final delivery. We use the latest technology and equipment to ensure that your shipments are handled safely and efficiently, and our customer support team is always available to address any queries or concerns.

# Sea Freight

Sea Freight is the ideal solution for transporting large and bulky international shipments, such as foodstuffs, earth minerals, petroleum products, automotive goods, clothing, industrial structures, and electronics. Due to its affordability, many customers opt for Sea Freight services for their logistical requirements.

At Sea Lion Shipping & Logistics, we recognize this trend and provide a comprehensive range of ocean freight services, all under one roof. Our strong partnerships with all the major shipping lines worldwide give our customers priority access to space. In addition, our customers benefit from flexible services at short notice, competitive pricing, and timely delivery.

We understand the importance of delivering your cargo on time and in good condition. Hence, we take every crucial measure to ensure your cargo is handled carefully and arrives at its destination safely and on schedule. Our team of professionals handles all aspects of your shipment, including documentation, customs clearance, and final delivery.

At Sea Lion Shipping & Logistics, we offer tailor-made solutions for all your ocean freight requirements, whether you are shipping a small or large consignment. Our prime objective is to provide our customers with reliable and cost-effective services, ensuring that their logistical needs are met with the highest professionalism and efficiency standards.

SHIPPING & LOGISTICS

# Land Transportation

At Sea Lion Shipping & Logistics, we offer a comprehensive land transport service that includes dedicated carriage, full over-the-road (OTR) service, dimensional traffic service, industry-specific transport, and specialist transport for transporting chilled and frozen goods, hazardous chemicals, and temperature-sensitive pharmaceutical products.

No matter where you are, we can arrange and manage the movement of your cargo fast and efficiently. We provide many options for transporting your goods over land, and we secure capacity at short notice through a range of dependable suppliers, all of whom meet stringent assessment criteria.

We understand the importance of safe and reliable transportation, especially when dealing with hazardous or temperature-sensitive goods. Our team of experts are trained to handle every aspect of your shipment, from documentation and customs clearance to final delivery, ensuring that your cargo arrives on time and in excellent condition.

Our land transport services are tailored to meet each customer's unique needs. Whether you require a dedicated carriage, specialized industry-specific transport, or dimensional traffic service, we have the expertise and resources to deliver a customized solution that meets your requirements.

At Sea Lion Shipping & Logistics, we take pride in our commitment to providing our customers with the highest professionalism, efficiency, and quality standards. We guarantee safe and timely delivery of your cargo at its destination.

# Project / Break-Bulk Movements

Project cargo refers to the transportation of voluminous goods characterized by their weight, size, or complexity, which require specialized handling and management. This can include disassembly, shipping, and re-assembly of complex components. Sea Lion Shipping & Logistics is a renowned logistics provider with a team of experienced professionals who specialize in managing such challenging and complex projects. Our team has the expertise and knowledge to provide customized solutions catering to your project requirements.

We offer a range of specialized logistics services to ensure seamless transportation of your project cargo from origin to destination. Our extensive global network and precise timing ensure that your cargo arrives safely and on time. Our team has a deep understanding of various geographical locations and can navigate complex logistics scenarios with ease.

## Charter Services

Sea Lion Shipping & Logistics – Air Charter team can access a wide range of cargo aircraft at short notice.

We not only provide in-house charter solutions but also function as an independent charter specialist to the air cargo industry in general by providing quality and reliable services such as procurement of charter aircraft for long-term as well as short-term lease, full charters, split charters, combination charters as well as charter consulting for industries and clients worldwide who have such deadlines to meet.

Decades of working experience in the aviation and freight industry worldwide have contributed a vast amount of local knowledge and a widespread network of clients and operators to our resources.

## Custom Clearance

Custom Clearance is one of the crucial aspects of our services. Customs clearance could be daunting and may cost your company time and capital. Sea Lion Shipping & Logistics will guide you through this process for time-saving and smooth Clearance.

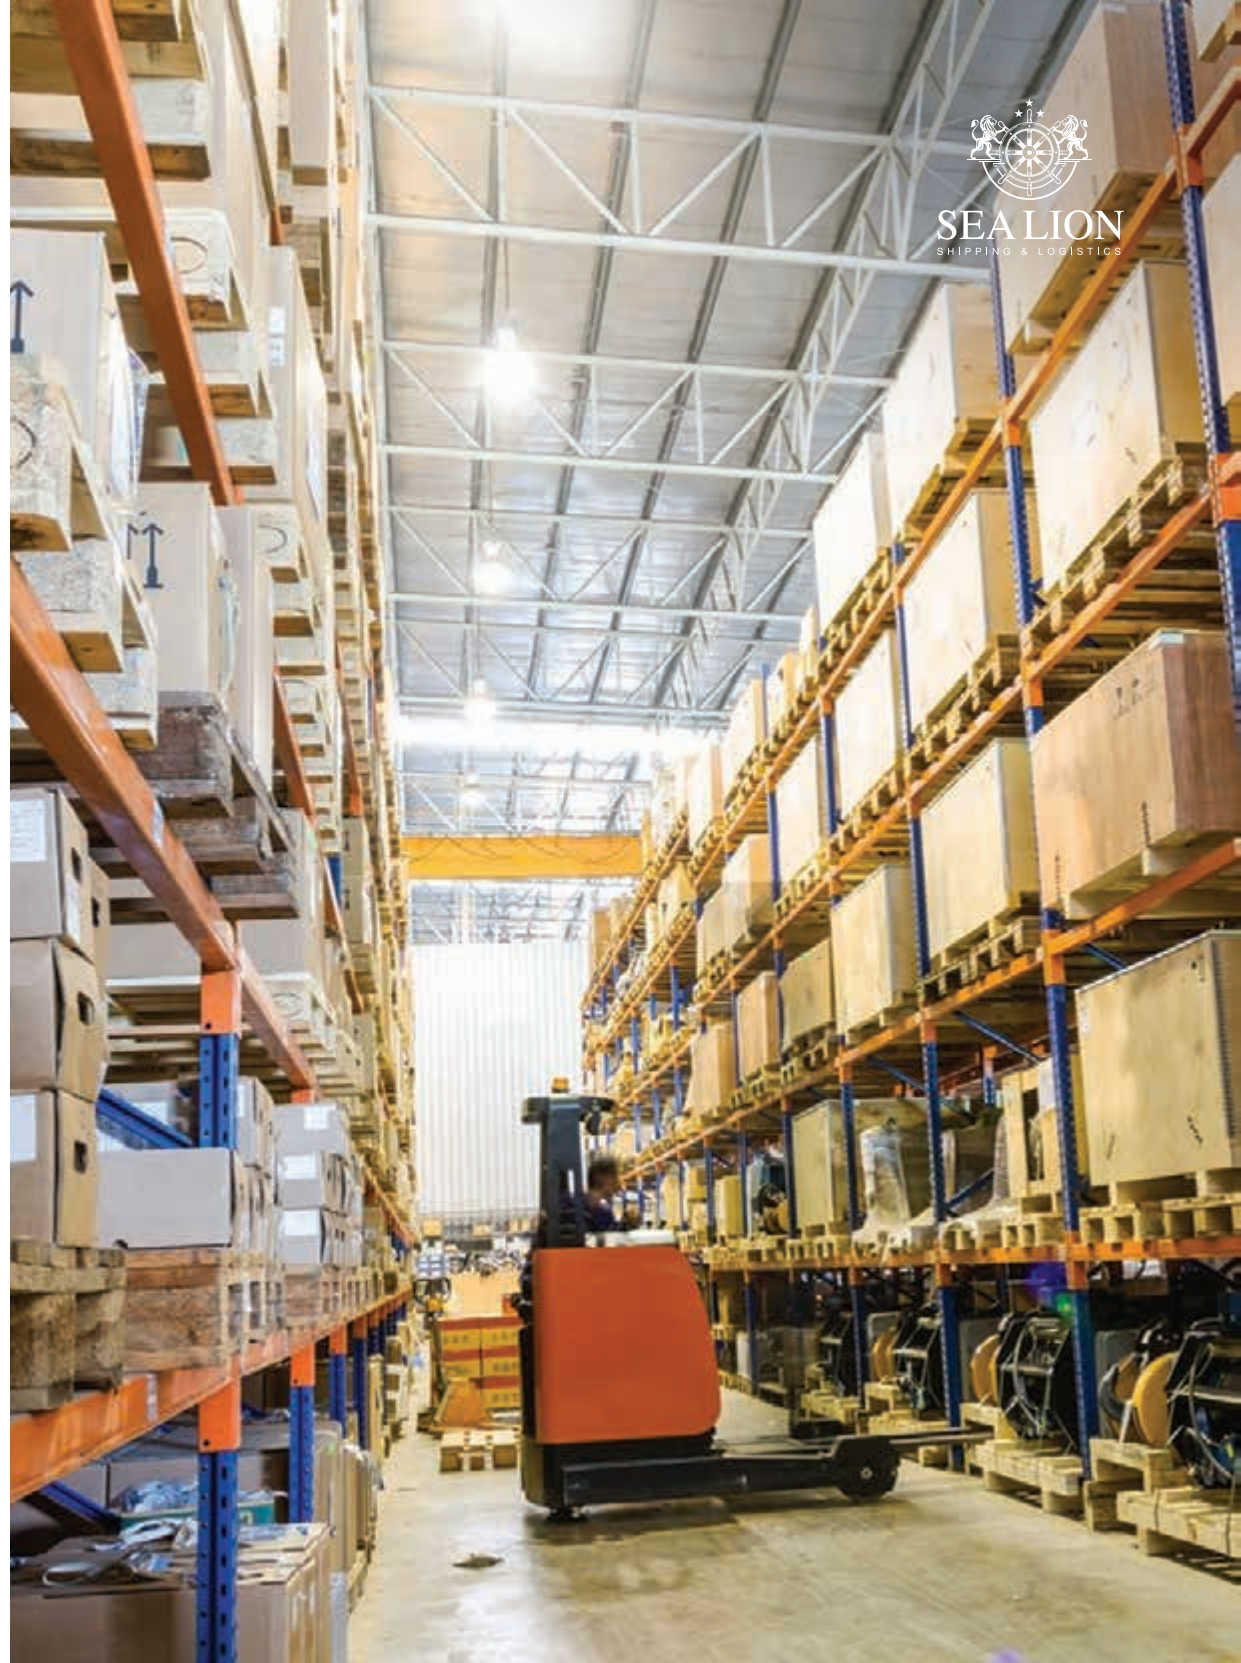

# Warehousing

Sea Lion, offer a full scope of warehousing. We also provide distribution functions and services, which incorporate distribution assortment, cross-docking, storage, order handling and transportation via air, road and sea. We give compelling coordination arrangements at lower costs that assist our clients with developing and stay competitive in the present market. We also offer Land transportation, customs brokerage warehousing and distribution co-packing.
